1. Executive summary

1.1. Overview

This report provides a summary of the operating performance for the provision of Titles Services within the Division of Resources and Energy of the NSW Department of Industry for the three-month period ending 30 September 2016.

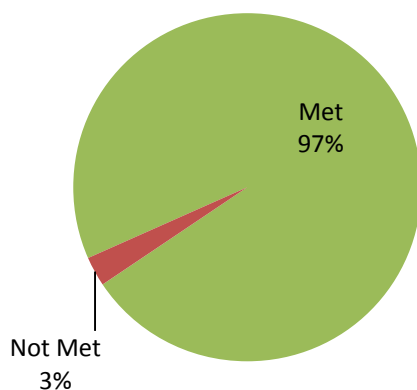

All exploration and mining activity in NSW must be conducted in accordance with an authority (Title) issued under the *Mining Act 1992*. Certain exploration and mining activities also trigger the requirement for additional approvals and other NSW legislation may also apply. The authority gives holders (Title holders) exclusive rights to explore or mine for the mineral group(s) for which the authority is granted.

For the purpose of this report, Titles Services incorporates the process of receiving and assessing of applications and the granting of authorities pursuant to Key Performance Indicators (KPIs) as published by the Division of Resources and Energy from time-to-time.

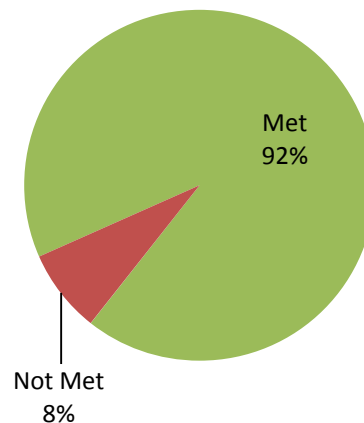

The data collected for this report is from 1 July 2016 to 30 September 2016. During this quarter 143 notifications of proposed decisions were issued by Titles Services, an increase of 96% compared to the previous period.

Of these notifications, 92% were processed within the required performance standard. A sustained improvement in service delivery standards is demonstrated over the past 12 months and a significant improvement compared to the 38% compliance achieved for the same period last year.

2. Additional information

2.1. Service levels and operations

For those mineral exploration licence applications, which do not require the approval of the Minister, the processing time for service level reporting is complete when the applicant is notified of the result of the proposed decision, or in the case of withdrawal, when the withdrawal of the application is finalised. Exploration licence applications for coal and petroleum, where the approval of the Minister is required, the processing time for service level reporting where applicable is complete when the submission is completed and sent to the Minister for consideration.

If an application is deficient, the applicant is notified immediately and given 10 business days pursuant to submit all supporting information required for assessment purposes. Processing timeframes commence when a complete application, including all required supporting information is received.

Any change to processing time occurs only under a *Stop-the-Clock* provision. Stop-the-clock provisions generally apply where additional information is required from the applicant or in the event of an exception identified in Appendix A.

Information regarding legacy work (dealings received before 1 January 2013) is provided in Appendix B. A flowchart of the application process for Titles Services is provided at Appendix C.

2.2. Service definitions

Activity	Purpose/definition
Exploration licence	Gives the holder exclusive rights to explore for petroleum or minerals within a designated area but it does not permit mining, nor does it guarantee a mining or production lease will be granted.
Mining lease /Petroleum production lease	Gives the holder the exclusive right to mine for petroleum or specific minerals or to conduct mining related activities on or under a specific area of land.
Assessment lease	Allows the holder to maintain an authority over an identified project area without being obligated to conduct further exploration activity.
Review of Environmental Factors (REF)	Informs the Department's consideration of the likely environmental impact of a proposed activity under Part 5 of the <i>Environmental Planning and Assessment Act 1979</i> .
Mining Operations Plan (MOP)	A plan which facilitates the monitoring of approved mining and rehabilitation activities during the life of a mine in accordance with the requirements of a development approval or any lease agreement.
Security deposits	Monies held in trust for rehabilitation works in the event of default by the titleholder.
Surface Disturbance Notice approvals (including Common Exploration Activities)	Notification of exploration activities involving disturbance or exposure of the soil or surface rock layer and/or degradation or deterioration in any manner of the physical surface of land.
Subsidence Management Plan (SMP)	Mining Lease Extraction Plan (MLEP) describes how subsidence impacts will be managed to meet the requirements of the development consent.

Appendix A: Exception management

The following exception management (Stop-the-Clock) protocols apply when circumstances beyond the control of DRE prevent the valid assessment of an application. On occasions where multiple circumstances give rise to multiple stop-the-clock triggers, these are dealt with in parallel rather than sequentially.

ALL APPLICATION TYPES			
Exception	Processing clock triggers		Applicable legislation/ notes
	Stop clock	Restart clock	
Applicant requests that application is put on hold.	Request received from applicant to stop processing.	Request received from applicant to restart processing.	N/A
Development consent required prior to <i>Mining Act 1992</i> approval.	Notification to applicant that processing cannot proceed without development consent.	Copy of relevant consent supplied to DRE.	Section 65 <i>Mining Act 1992</i> Clause 7(1) <i>State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007</i>
EPBC Act referral decision or approval required of direct relevance to application or title.	Notification to applicant that processing cannot proceed until referral decision or approval is made.	Copy of referral decision or approval supplied to DRE.	<i>Environment Protection and Biodiversity Conservation Act 2000</i>
Relevant litigation underway in relation to application or title.	Notification to applicant that litigation precludes further processing.	DRE notified that litigation has been resolved.	N/A
Significant unresolved issue with third party of direct relevance to application or title.	Notification to applicant that issue with third party precludes further processing.	DRE notified that issue with third party has been resolved.	N/A
Serious compliance issue of direct relevance to application or title.	Notification to applicant that compliance issue precludes further processing.	Compliance issue has been resolved.	To be dealt with in accordance with DRE compliance/enforcement policy and procedures
Deficiency in application which may otherwise result in application being refused.	Notification to applicant of deficiency.	Requested information supplied to DRE or applicant does not supply information within requested timeframe.	Administrative law principles relating to the exercise of discretionary powers and procedural fairness
