

# Take action to prevent dust disease

“The good news is that dust-related lung diseases are entirely preventable. If you take the right steps, you can live a long life and be there for your family.”

**Dr Deborah Yates**

Respiratory Physician  
St Vincent's Hospital, Sydney

Dust – Just because you can't see it, doesn't mean it's not there.

Visit the dust toolkit for more resources. [resourcesregulator.nsw.gov.au](https://resourcesregulator.nsw.gov.au)
